

UPDATE: Canopy's Phased Reopening and New Disinfectant Protocols

Canopy has mindfully and successfully managed the first phases of reopening. We are now updating our practices and protocols to address an ever-changing public health emergency. As always, our first priority is to keep all of our staff and students safe.

subject to change without notice based on data and updated best practices

Phase 2 (Mid Summer)

- Continuation of Canopy Live classes
- Instructors can book training time
- Private lessons continue, no booking during class schedule
- Limited 4 week summer class schedule begins, no more than 12 per class in main studio
- Summer Camps begin (or continue if started in Mid-June, TBD)
- One exit/ one entrance still encouraged for studio flow
- New waiver and consent form signed by all participants
- Mask required for all (including children) at all times to enter studio and train on equipment
- Studio rosin spray allowed with disinfecting procedure
- Extensive disinfecting protocols for equipment before each use
- Studio sprayed monthly with Electrostatic FDA-approved product to kill 99.9% of bacteria, mold and viruses, including COVID-19.
- CDC guidelines followed

Phase 3 (August and into Fall)

- Continuation of some Canopy live classes
- Instructors can book training time when space allows
- Private lessons booked when available
- Limited schedule begins for a 10 week session, subject to change without notice
- Continued smaller numbers in main studio and small studio classes
- Waiver and consent form signed by all new participants
- Mask required for all (including children) at all times to enter the studio and train on equipment.
- Studio spray rosin allowed with disinfecting procedure
- All fabrics/slings are single use. Once used by a student, they will be disinfected with Vital Oxide before entering inventory for active use.
- Extensive disinfecting procedures for equipment before/after use and sprayed 2x weekly with Cobalt fogger using Vital Oxide disinfectant.
- Studio spraying monthly with Electrostatic FDA-approved product to kill 99.9% of bacteria, mold and viruses, including COVID-19.
- Installation of new indoor/outdoor air filtration system that pushes outside air into the studio for increased ventilation.
- Air purifier rated at 6000sq ft that runs nightly.
- All students sanitize, take temp, and wait 6ft apart outside before entering to ensure a circulation pattern between classes.
- One entrance/one exit mandatory for studio flow.
- CDC guidelines followed.
